B-Epic Happy Dog CBD oil drops are made with pure, organic U.S. CBD. Moreover, our CBD products are double tested to ensure purity and potency – first the raw material and second the finished product. All products have a QR code that is scannable and takes you to the third-party lab's certificate of analysis (CoA) showing concentration levels of CBD, heavy metals, pesticides, cannabinoids, and – most importantly – zero THC.

In addition, B-Epic's Happy Dog Premium CBD Broad Spectrum Hemp Oil is made with proprietary HydroPure, a micelle nano water-soluble CBD technology designed for quicker, advanced absorption and efficacy. This medical micelle technology delivers faster, better absorption – increasing the bioavailability. As a result, your pet will experience faster, better health benefits.
